

UNIT TRIPPING REPORT

UNIT No: 2

STATION: NTPL, TUTICORIN.

OUTAGE NO: 91

REPORT NO: 91

- | | |
|--|---|
| 1.Date of tripping | : 24-08-2024 |
| 2.Time of tripping | : 01:43Hrs |
| 3.Status before tripping | |
| a) Unit load | : 393MW |
| b) Mills in service | : A, C, E, G & H |
| c) Oil guns in service | : NIL |
| d) Boiler feed pumps in service | : TDBFP A & B |
| e) CEPs in service | : A & B |
| f) ID fans in service | : A & B |
| g) FD fans in service | : A & B |
| h) PA fans in service | : A & B |
| i) CWP in service | : A & B |
| 4.First Up protection acted | : Turbine Tripped on Control fluid pr low |
| 5.Other relays/protection acted | : Boiler tripped on reheater protection. |
| 6.Supporting documents attached | : S.O.E & Trends |
| 7.Any operation done prior to tripping | : Nil |
| 8.Analysis of tripping | : |

Unit was running at 393 MW in CMC. HPCF pump 2 got tripped @01:43 hrs and HPCF pump 1 came into service but control oil pressure did not develop resulted in turbine trip, vacuum breaker opened on control oil pressure low and condenser vacuum deteriorated resulted in HP & LP bypass trip close and boiler got tripped on Re heater protection.

9. Root cause :

Running HPCF pump motor has failed and standby HPCF pump has started but control oil pressure not developed, due to Foaming/air lock. Standby pump pressure not developing, which is the root cause of unit trip.

10. Remedial measures taken/to be taken:

- i. Venting provision may be provided in HPCF discharge line to tank.
- ii. HPCF pump-2 motor replaced and taken into service

11. Time/Date of boiler light up and sync:

Light Up: : 02:10 Hrs on 24/08/2024

Sync'd: : 03:45 Hrs on 24/08/2024

12. Delay for Synchronization : NIL

13. Recommendation / Action plan :

- i) Venting provision may be provided in HPCF discharge line to tank, with a root valve.
- ii) Periodical start/stop of stand by HPCF pump to be done to ensure the stand by pump is developing pressure.

14. Any specific learning / feedback :

- i. Healthiness of HPCF motor is to be checked periodically.
